 **LIFECOLOR**
Acrylic Colours For Modellers

INTRODUZIONE / INTRODUCTION

Da 30 anni, con passione e cura, produciamo oltre 450 specifici colori per modellismo; ognuno di essi è stato pensato, calibrato e distinto nel tono con le stesse passione e cura che tu poni nel costruire il tuo modello. Tra i nostri colori, basati sul Federal Standard, sul RAL, sul RLM o sulle più prestigiose tavole di riferimento del caso, troverai sicuramente il tono di colore che ti serve e, grazie alla nostra costante passione ed al nostro impegno nel riprodurre fedelmente ogni tinta, sarai certo di applicare al tuo modello il tono di colore più adatto e realistico che potessi scegliere. I nostri colori non variano soltanto per il tono, anche la quantità di pigmento e gli agenti opacizzanti contenuti in essi sono differenti, solo così ti sarà possibile ottenere la finitura più adatta al modello che stai realizzando, molto opaca per una divisa o per sembrare vero legno, lievemente satinata o semi lucida per simulare il metallo verniciato. Prova dunque i nostri colori e... model yourself higher!

Since almost 30 years Lifecolor produces, with deep care and competence, over 450 specific model colours; each colour has been conceived in tone and formula, with the same attention you have to built your own model. Within our colour range, based on: Federal Standard, RAL, RLM or on other major reference color tables, you will certainly find the tone you need. Thanks to our devote activity in accurate reproducing each shade, you will use the most apt and realistic available tones of colours. Our colours either differs in a vast range of tones, pigment quantity and different matting agent, so you will obtain the best finishing for the model detail you are working on, very matt to reproduce a uniform or wood, lightly satin or gloss to make it looks as varnished metal. Well try our colours and... model yourself higher!

BASE COLOURS SERIES

ISTRUZIONI PER L'USO / INSTRUCTIONS

Colori acrilici per modellismo ed hobbistica, adatti a plastica, resina, metallo, vinile, legno, stoffa, ceramica. Pulire le superfici prima di verniciare ed applicare il colore a pennello o ad aerografo. Attendere la completa essiccazione prima di applicare altre mani di colore. Diluire preferibilmente con il Thinner Lifecolor oppure con acqua. Pulire pennelli ed aerografi esclusivamente con acqua o con Cleaner Lifecolor.

Hobby and modeling acrylic colours for plastic, resin, metal, vinyl, wood, cloth and ceramic. Clean the surfaces before painting and apply the colour with brush or airbrush. Wait the complete drying before applying second coats. Dilute the product with Lifecolor Thinner or water. Wash brushes and airbrushes exclusively with water or Lifecolor Cleaner.

FEDERAL STANDARD COLOURS SERIES

Questa serie di 160 colori, 54 tinte base e 101 colori mimetici è completamente basata sulla corrispondenza con il Federal Standard 595b, e ciascuno colore riporta sull'etichetta il numero FS corrispondente. L'asterisco (*) prima del numero di riferimento indica una corrispondenza solo parziale con la chip del Federal Standard alla quale il colore si riferisce. I numeri del Federal Standard devono essere così interpretati:

se il numero inizia con la cifra 10 è un colore lucido
 se il numero inizia con la cifra 20 è un colore satinato
 se il numero inizia con la cifra 30 è un colore opaco

This 160 range colours, 54 basic paints and 101 mimetic paints, is full based on the Federal Standard 595b correspondence and each colour label shows the equivalent FS number. Please note that the asterisk (*) before the reference number indicates a partial correspondence with the FS colour chip. The Federal Standard numbers must be read as:

If the number start with 10 it is a gloss colour
 If the number start with 20 it is a semi gloss colour
 If the number start with 30 it is a matt colour

Espositore da 160 colori. 160 colours display.

LIQUID PIGMENTS

P R O D U C T S

Adjustable & Non Smelling

WASHES - FILTER

USEFUL FOR BRUSH AND AIRBRUSH

I Liquid Pigments sono prodotti completamente innovativi, sono INODORI, PRATICI e FACILISSIMI da usare. I Liquid Pigments si possono usare sia come lavaggi sia come filtri e, grazie alla loro ESCLUSIVA FORMULAZIONE, possono essere MODIFICATI, RITOCATI o COMPLETAMENTE RIMOSI dal modello anche DOPO NUMEROSI GIORNI DALLA APPLICAZIONE. I Liquid Pigments permettono quindi al modellista principiante di ritoccare o rifare da zero la loro applicazione ed al modellista più esperto di esplorare nuove personali tecniche pittoriche senza paura di rovinare il proprio modello.

Liquid Pigments are a completely innovative product; they are ODOURLESS and VERY EASY TO USE. They can be used both as washing liquid or as filters and, thanks to their EXCLUSIVE FORMULATION, can be MODIFIED, ADJUSTED or COMPLETELY REMOVED from the model even AFTER SEVERAL DAYS FROM THE APPLICATION. Liquid Pigments are specially useful for beginners because they allow them to adjust or remove completely their work in progress and for experienced modelers, to explore new personal painting techniques without ruining their model.

BRITISH RAILWAYS

Grazie alla collaborazione di Mr. George Dent, Model Rail Magazine e del rivenditore inglese "The Airbrush Company", Lifecolor è riuscita a racchiudere oltre 40 anni di storia ferroviaria britannica in 18 tinte perfettamente calibrate. La gamma di colori, divisa in 3 cofanetti, garantisce la possibilità di ricreare qualsiasi tipo di livrea presente sui vagoni e sulle locomotive dal 1948 al 1990.

Thanks to the collaboration of Mr. George Dent, Model Rail Magazine and the British model store "The Airbrush Company", Lifecolor has managed to enclose more than 40 years of British railway history in 18 calibrated paints. The colors range, divided in 3 sets, guarantees the ability to recreate any type of livery cars and locomotives from 1948 to 1990.

In collaboration with
Model Victoria Italy

Attraverso l'eccezionale ricerca storica svolta da Model Victoria, Lifecolor propone 6 nuovi colori dedicati alle divise. Una scatola completa che offre la possibilità di replicare tutte le divise italiane durante il conflitto della Prima Guerra Mondiale.

Through the exceptional historical research carried out by Model Victoria, Lifecolor proposes 6 new colors dedicated to uniforms. A complete box that offers the possibility to replicate all the Italian uniforms during the conflict of the First World War.
